

PAINT WITH CONFIDENCE

Solutions for the wine industry

Solutions to Maintain Cellar Hygiene and Aesthetics.

Our products have been tested and approved by Thales Services – safe for use in a wine cellar or wine storage facility.

From the early days of 1979 to today's high-tech research and development, we have grown the manufacture of a comprehensive range of quality coatings. The products in this brochure were tested for releasable concentrations of organohalogens and will not contribute to "cork-taint" and related off flavours in wine. These products are safe for application in wine cellars or storage facilities.

EXTERIOR SOLUTIONS

Walls

SABRESHIELD is a heavy-duty, fibre-reinforced, waterproof coating with unique dirt-shedding technology, excellent flexibility and UV resistant properties to provide superior substrate protection together with unsurpassed eco-friendly properties.

Roofs

ROOF SHIELD is a premium quality heat reflective roof coating with solar reflective technology that reduces surface and internal temperature. ROOF SHIELD will extend the life of your roof and result in improved energy efficiency.

SOLAR REFLECTIVE TECHNOLOGY

WE'RE AS GREEN AS YOU CAN GET

As members of the Green Building Council of South Africa and the S.A. Paint Manufacturers Association, we are committed to conserving our valuable environment and pride ourselves on being at the forefront of global eco technology. With the latest technology and equipment, we continuously formulate and develop market leading products and constantly improve on prescribed VOC levels while being formaldehyde, APEO, glycol and lead free.

Organohalogen reports are available on request. Please follow all application instructions as per the technical data sheet to ensure correct product application and health and safety measures.

INTERIOR SOLUTIONS

Walls and Ceilings

SATIN NON-DRIP is a tough, durable, superior quality and highly washable non-drip water-based enamel that dries to a non-yellowing satin sheen finish. For use on interior/exterior walls, doors, trims, kitchens & bathrooms.

SILVER ANTI-BACTERIAL

Floors

EPOXY TWIN PACK FLOORCOAT is an industrial, twin pack, water-based epoxy top coat with self-levelling properties. This product is low in odour and zero in volatile organic compounds.

Wine Implements

A & A PAINT & VRUGTEBAK are superior quality chemical, alkali and acid resistant paints, designed to withstand harsh environmental conditions. For interior and exterior use, with a gloss and mid-sheen finish.
